

How can I find more information to better understand the CPF rules which will affect me when I turn 55?

You will receive a letter from CPF Board a few months before your 55th birthday, providing you with more information. The letter will give you details on how to make an appointment to attend the CPF Retirement Planning Service (CRPS), which is a one-to-one session where you will get personalised information about the CPF rules that will affect you when you turn 55. If you prefer, you can also view your personalised retirement planner online, which is an available option starting from six months before your 55th birthday. Finally, you can attend our talks to learn more about planning for your retirement.
