

What is my payout eligibility age?

Your payout eligibility age is the age where you can start receiving your retirement monthly payouts. If you were born in 1954 or later, your payout eligibility age is 65. This means that you can start receiving your monthly payouts any time between the ages of 65 and 70. If you were born before 1954, the table below shows your payout eligibility age. Please note that your payout eligibility age is not linked to your retirement or re-employment age. You can still receive payouts from your payout eligibility age even if the retirement age or re-employment age is raised.
